Welcome

A warm welcome to our 2023 Annual Bull Sale.

Again, a lot of water has passed under the bridge in many ways since our last Bull Sale and can't 12 months make a difference. But whilst our cattle prices have come back and interest rates risen, it's pretty much back to pre-pandemic days and is still all manageable. We still live in the lucky country. I can see whilst driving around and going down to our NSW country that a lot of the past couple of years earnings from great cattle prices has been spent in productive ways. Lots of new fencing, land improvements, sheds and places being tidied up generally. These well spent funds will pay back producers going forward in droves.

On the family front we welcomed a a gorgeous new granddaughter, River, for Ryan and Rach last October, and a healthy new baby grandson, Noah, in February (congratulations Emma and Nic for Emma's first).

From our stud's point of view as always, we continue to strive to breed good functional bulls for your needs. Ryan and Rach have invested heavily in some new and exciting genetics for the Charolais (see pages 6-7), and Raelea and I have been settling in our new Angus purchases we made in the 2022 year. These cattle and genetics introduced into our herds always have industry needs in mind including:

- Carcase qualities supported by EBV's and real time scanned data for performance feedback
- Feedback from entering feedlot trials
- Fertility based on real time calving intervals
- Structure for longevity
- Strength of breeding from sires and dams
- Sensible calving
- Quiet temperament
- Targeted with Central and Western Queensland environment, conditions and cattlemen at the forefront.

We look forward to seeing you at our Bull Sale and please stay for complimentary lunch in the renowned Ag-Grow Woolshed. If you are unable to attend, we will be operating under Auctions Plus again this year. Please also feel free to ring us to arrange on property inspections prior to the sale or to have a yarn about the genetics we have been using.

Jeff and Raelea, Ryan and Rachel Holzwart

Sale Information

Inspection:

Inspection of the bulls is most welcome prior to the sale by arrangement and at the Ag-Grow Bull Selling Complex from 2pm the day before the sale.

AuctionsPlus:

Our sale will be interfaced with AuctionsPlus again this year - www.auctionsplus.com.au.

Refreshments & Lunch:

We would like to take time to enjoy the sale and spend time with clients and friends, so please join us for complimentary morning tea prior to the sale and a free post-sale lunch, maybe even a beer or two.

Supplementary Sheets:

All bulls will be scanned prior to the sale by certified scanning technician David Reid for eye muscle area (EMA), rump fat, rib fat and intra muscular fat (IMF). Bulls will also have a sale weight and scrotal size measurements which will all be printed on supplementary sheets and available on sale day or just prior to the sale on our website.

Health and Vaccinations:

Sale bulls are vaccinated with:

- 3 day
- 7-in-1
- 3 germ blood
- Vibrio

The bulls will be Dectomax injected ready for tick clearance.

Sale Day Safety:

Your safety is important to us. Our cattle are quiet however animal behaviour can be unpredictable at times. Noise and large crowds of people can make animals react differently so please be mindful of the bull if you enter their yards. Children should be supervised at all times.

Agents Rebate:

A 4% rebate will be given to outside agents for genuine introductions. (Usual conditions apply).

Delivery:

Free freight available to most local areas, including Alpha, Rolleston, Springsure and Clermont. Bulls can be cleared at Emerald Saleyards if required. Please talk to the agents, Jeff or Ryan for delivery assistance or leave instructions at the registration desk at the sale.

Guarantee:

We back our bulls 100% and are extremely tough on evaluations and making sure the bulls are structurally sound and fertile. All bulls will be semen tested, breeding soundness evaluated and are guaranteed breeders. If a problem occurs against the breeding ability of a bull within the first full breeding year of purchase, a replacement animal of comparable value or bull credit for the following sale will be given if required. Please contact us if you have any issues.

Biosecurity:

Bauhinia Park Studs are currently operating under a J-BAS 6 score. We are aware of the industry requirements and have a plan in place. We are willing to meet the needs of purchasers. A health declaration will be provided with the usual NVD on sale day.

Breedplan:

Our studs are Breedplan recorded, and EBV's are printed in the catalogue.

Disclaimer:

Every care has been taken during the compilation of this catalogue to ensure that the information is correct. However, no responsibility will be accepted for errors that may have occurred.

June 2023

Vale Lawrie Nalder.

In June we said goodbye to Anthony's Uncle, Lawrie Nalder. Lawrie had done a lot of carting grain & cotton seed for us over the years and will be greatly missed not only by Anthony, Bindi & their family, but us as well.

Charolais Bulls

Lots 1-45

Bauhinia Park Natalie 7 K95E with calf Bauhinia Park Tornado (sired by ANC Q-Pac).

Welcome to our Annual Bull Sale.

Another year has flown by, and we are again very proud to present a strong line up of Charolais bulls for 2023. This year has been an exciting one for us with the purchase of new homozygous polled Stud Sire 'Start The Party' from Venturon Livestock in WA along with a select group of very special females from Tom and Ann Wilkinson's highly regarded 'Fernvale Charolais'. We are excited to have been given the chance to access such genetics and are confident with what they will bring to the herd going forward.

After almost 30 years of breeding Charolais our philosophy remains simple - breed high performance cattle with the right fundamentals. We place a huge emphasis on fertility & constitution within our cow herd to ensure these traits are passed down the line through to commercial producers that buy our bulls. Weight for age, natural muscling, good temperament, and ability to finish are also key traits we aim to breed in our bulls. We work hard to source the best possible sires to add to our operation that suit the needs for our area and the objectives outlined above.

We continue to receive good feedback about the progeny of our bulls, recently topping the Emerald weaner and feeder sales and gaining good feedback in feedlot competitions. We believe the Charolais' place in a herd is to add muscle, weight and yield, without sacrificing desirable carcass traits.

The bulls on offer this year are true industry focused beef bulls with the great shape and the constitution we strive to produce. They are well developed, fit, healthy and ready to work, and we are extremely confident they will perform well for their new homes. The 45 Charolais bulls in the sale include 22 polls and 13 red factors. The sale team include both new and proven genetics from our sire battery, with the main bloodlines including sons of ANC Lastovski, 4 Ways Mario (P), homebred calving ease sire Patriot (P) and the \$52,500 sire Moongool Pilgrim (PP).

Please feel free to come and inspect the bulls any time prior to the sale via appointment with us or jump online to view photos and videos of the bulls.

Hope to see you August 23rd.

Ryan & Rachel Holzwart

Lastovski was purchased in 2017 for \$37,000, one of the most impressive bulls we have ever seen set foot in a sale ring. Lastovski is a proper beef bull with tremendous length, thickness and constitution. He displays a good sire's head, loose skin, super thick hindquarter & covers the cows with ease.

We are very happy with the consistency Lastovski passes through to his progeny. Sons carry their sire's great carcass attributes and are ideal cross breeding machines whilst his daughters are beautiful roomy females with plenty of milk.

Mario complements our sire battery nicely, his eye catching phenotype, soft muscle pattern and beautiful temperament make him a real contender. Mario is still sound as a bell and has cemented himself as a true breeding sire, he just doesn't miss!

Mario progeny display that extra touch of class just like their sire whilst still showing great carcass attributes. The Mario daughters have beautiful udders and plenty of milk whilst his sons are real all-rounders, they will be sure to impress.

Patriot was our sale topper in 2020 selling to Wyntoon farming partnership. We used Patriot over our maiden heifers with great results. His progeny are easy calving, born small with plenty of vigor and grow into real carcass machines. He is well represented in this years sale - the Patriot sons come highly recommended.

Angus Bulls

Lots 46-90

Welcome to the Angus section of our sale.

Bauhinia Park Angus stud initially invested a lot of time and money in our Angus program, via AI programs, Embryo programs and acquiring top line genetics. We now have third, fourth and fifth generation cows we have bred up from these initial programs. These home bred stud cows now provide us with much more predictability, having only retained the good ones based on our required attributes at the forefront.

Depth of breeding is so important in maintaining a herd that will breed consistent, value adding bulls for our commercial customers. We have travelled extensively, googled (as you do these days) and sought feedback from wherever we can, both overseas and in Australia, looking out for the best breeding we can find. Our search concentrates on Angus cattle that we believe suit our area whilst retaining the performance criteria and physical weight for age against their peers.

Having invested and expanded our angus herd significantly as outlined in our 2022 catalogue, 2023 has been a year of consolidation. The calves that we recently weaned, together with the calves dropping now are another step in the consistency in type that we are striving for. We have also used in our AI program Millah Murrah Rembrandt , the \$240,000- bull sold in 2021 who we appreciate for his capacity and ability to move effortlessly. We also used Elliston Ranglands who is a lower birth carcass bull with heaps of punch and again is a lovely free mover. Genetic suppliers whose judgement I value tell me Ranglands is doing a terrific job in USA. We also have extensively used home based sires M38 and P236 who have proven to be producing calves with almost unrivalled consistency .

For the 2023 bulls presented this year, we are very happy with their balance and performance and look forward to catching up with everyone at the sale. As was said in the opening, should you not be able to attend then please follow us on AuctionsPlus.

M38 is the son of a bull we had a lot of success with in H248 (many knew him by his nickname 'Gus'). We retained M38 as we believed he was such a complete animal due to his structure, muscle pattern, overall appeal and 'do-ability'. He has not disappointed. His sons in this sale are a testament to this. Likewise, his females are beauties with great udders, and are producing really well almost regardless of the sires we put over them. You will see a lot more sons over the next few years, and sons of M38 daughters for years to come as well.

M38 as a calf.

P236 was selected for his breeding and balance. He was used in his first year over a variety of female genetics. Again, like M38, he crossed awesomely with just about every female regardless of their breeding, and his first sons sell in this sale. P236 cattle just get stronger and stronger as they grow, and his sons will add do-ability, length, carcass and weight for age that will shine through from weaners to back grounders and all the way to bullocks. His first heifers are just calving now and are making great little mothers.
